One Salem Green
Salem, MA 01970

Architect

Earl R. Flansberg & Associates
Alan Ross
77 North Street
Boston, MA 02144
781-749-4160

Cost

\$9,804,758

Size and Type of Construction

Approximately 68,000 sf of both new construction and renovation work. The Exterior/Envelope work included structural steel and brick veneer with membrane roof and an aluminum window system. Interior walls were both GWB and masonry. Finishes included VCT, carpet, tile, and wood flooring and custom millwork.

Phased construction and a compressed construction schedule were unique to this project.

Seaver built classrooms, laboratories, a theatre, library, cafeteria, media room and offices for the school.

Types of Space

Educational
