Architect

Strekalovsky and Hoit, Inc., Architects
51 North Street
Hingham, Massachusetts 02043
(781) 749-4160

Cost

\$7,006,100

Size and Type of Construction

Approximately 80,000 sf of new construction and renovation work. The Exterior/Envelope work included structural steel and brick veneer with membrane roof and an aluminum window system. Interior walls were both GWB and masonry. Finishes Included VCT, carpet, tile, and wood flooring, and custom millwork. Seaver installed an elevator within the existing building.

Phased construction and an occupied space were unique to this project.

Types of Space
